Carlos Mezquita

Software Engineer | Portsmouth, UK
hello@carlosmezquita.dev
carlosmezquita.dev | github.com/carlosmezquita | linkedin.com/in/carlosmezquitalobato

Software engineer with experience in test automation and development at Denodo.
Builds full-stack applications and AI prototypes. Available from July 2027.

Experience

Denodo | QA Testing and Development Mar 2023 – Oct 2025
A Coruña, Spain | Full-time internship (Mar–Jun 2023), then part-time

- Led the parallel test redesign, setting strategy and tracking before two colleagues joined.
- Reworked the test factory and expected-output validation so legacy suites ran independently.
- Contributed to the Jelly-to-TestNG migration, wrote automated and unit tests, investigated defects and verified release fixes.
- Implemented LPAD and RPAD, reconciling SQL behaviour across underlying data sources.

Projects

Snoojote | Discord bot (live since 2022)

- Build and maintain a TypeScript bot for r/Spain (around 4,400 members), with 241 automated tests.
- Deduplicate Discord interactions during restarts and reconcile uncertain role purchases using SQLite.

CadeiraAI | Voice booking and dashboard (offline prototype)

- Built the voice booking flow with teammates using Twilio, Azure Speech and LangGraph. Migrated the API to Bun and Hono.
- Built the React dashboard with live WebSocket transcripts. Set up Cloud Run deployment and CI running 1,600+ automated tests.

Surfay | Galician surf forecast (deployed prototype)

- Built a React and MapLibre app backed by Cloudflare Workers, combining Open-Meteo forecasts with coastal profiles.
- Used D1 leases to prevent overlapping refreshes and served compatible cached forecasts when refreshes failed.

Urbot | Planning report orchestrator (in development)

- Built and continue to develop a Cloudflare Workflows pipeline for Madrid hotel planning that gathers official sources and runs deterministic checks.
- Validate citations against captured source passages and retain evidence gaps in preliminary reports.

Leadership

President | University of Portsmouth AI Society Sep 2026 – Present

- Lead the relaunch of a 58-member society, coordinate the weekly committee, plan workshops and build nights, and lead industry outreach.

Education

University of Portsmouth Sep 2026 – Jul 2027 (expected)
BSc (Hons) Computer Science and Advanced Technologies

Liceo La Paz 2021 – 2023
Higher Technician in Multiplatform Application Development (DAM), 9.15/10

Skills

TypeScript, JavaScript, Java, SQL, React, Bun, Hono, SQLite, PostgreSQL, Cloudflare Workers and Workflows, LangGraph, WebSockets, Twilio, Azure Speech, Docker, GitHub Actions, Git, automated testing (TestNG, Bun, Vitest, Playwright).
Spanish and Galician (native), English (professional).
