Carlos Mezquita

Software Engineer | Portsmouth, UK
hello@carlosmezquita.dev
carlosmezquita.dev | github.com/carlosmezquita | linkedin.com/in/carlosmezquitalobato

Software engineer with experience at Denodo in test automation and development. Building full-stack applications and AI prototypes. Available from July 2027.

Experience

Denodo | QA Testing and Development Mar 2023 – Oct 2025
A Coruña, Spain | Full-time internship (Mar–Jun 2023), then part-time

- Led the redesign of legacy automated tests for parallel execution, reworking the test factory and expected-output validation so tests could run independently.
- Contributed to the migration from Jelly to TestNG, wrote automated and unit tests, and investigated defects and verified fixes for releases.
- Implemented the SQL functions LPAD and RPAD, accounting for differences in behaviour across underlying data sources.

Projects

Snoojote | Live Discord bot

- Built and maintain a TypeScript bot running 24/7 for the r/Spain Discord community (4,400+ members) since 2022, with around 220 automated tests.
- Use SQLite to deduplicate interactions during restarts and reconcile role purchases after ambiguous Discord API failures.

Surfay | Marine forecast prototype

- Built a React and MapLibre interface backed by Cloudflare Workers to show marine forecasts, coastal profiles and moderated condition reports. Forecast scores are experimental.

CadeiraAI | Bilingual voice AI prototype (offline)

- Built the booking flow, streaming Twilio call audio to Azure Speech and using LangGraph to create restaurant reservations. Teammates also contributed.
- Implemented a Bun/Hono backend with PostgreSQL, around 100 automated test files and a GitHub Actions workflow that deploys a Docker image to Google Cloud Run.

Urbot | Agent orchestrator for urban planning (in development)

- Developing a Cloudflare Workflows orchestrator that gathers official sources, runs deterministic checks and drafts cited planning reports for Madrid hotel projects.

Leadership

President | University of Portsmouth AI Society Sep 2026 – Present

- Lead the relaunch of a society with about 60 members and coordinate the weekly committee.
- Plan hands-on workshops and build nights, manage communications and lead industry outreach.

Education

University of Portsmouth Sep 2026 – Jul 2027 (expected)
BSc (Hons) Computer Science and Advanced Technologies (Top-up)

Liceo La Paz 2021 – 2023
Higher Technician in Multiplatform Application Development (DAM), 9.15/10

Skills

TypeScript, Java, Python, SQL, React, Node.js, Cloudflare Workers, PostgreSQL, TestNG, Docker, GitHub Actions, Git, LangGraph, Twilio
Spanish and Galician (native), English (professional)
