Carlos Mezquita

Software Engineer | Portsmouth, UK

hello@carlosmezquita.dev | carlosmezquita.dev
github.com/carlosmezquita | linkedin.com/in/carlosmezquitalobato

Software engineer with QA and development experience at Denodo. Building web applications and backend systems while completing a BSc (Hons) top-up at the University of Portsmouth.

EXPERIENCE

Denodo | QA & Software Development (Part-time)

Mar 2023 - Oct 2025 | A Coruña, Spain

- Owned the redesign of parallel execution for a large automated test suite, reducing runtime by several hours.
- Contributed to the migration from Jelly to TestNG and developed automated and unit tests.
- Investigated defects, verified fixes and supported manual release testing.

SELECTED PROJECTS

Surfay | Working prototype

Built a React/MapLibre interface and Cloudflare Worker backend combining marine forecasts with local coastal profiles, stored snapshots and moderated condition reports. Experimental scores; forecast accuracy has not been validated.

github.com/carlosmezquita/surfay

Urbot | In development for NMarq

Building an internal urban-planning tool with guided intake, deterministic planning checks, evidence tracking and human review. React, TypeScript, Cloudflare Workers, D1, R2 and MCP. Private source.

Cadeira | Personal project

Worked across a React/TypeScript client and Node.js backend for AI restaurant reservations, integrating telephone calls, speech services, agent orchestration and booking workflows. Twilio and LangGraph.

EDUCATION

University of Portsmouth | Sep 2026 - Jul 2027 (expected)

BSc (Hons) Computer Science and Advanced Technologies (Top-Up)

Liceo La Paz | 2021 - 2023

Higher Technician in Multiplatform Application Development (DAM)

LEADERSHIP & SKILLS

President, University of Portsmouth AI Society. Organising practical workshops, build nights and industry connections.

TypeScript/JavaScript, Java, Python, SQL; React, Node.js, Cloudflare Workers, D1/R2, TestNG and Git. Spanish and Galician: native. English: professional.
